

Changes to how we are working

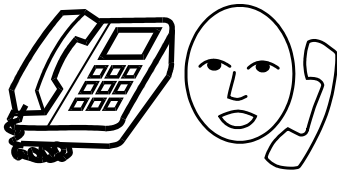

Services are not being run in the usual way

This is due to Covid 19 (see attached sheet)

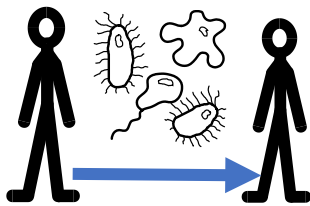

Most home visits will not be happening

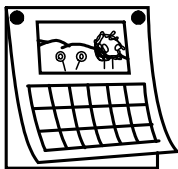

We will use the telephone to find out how you are

If we have to see you, we will be wearing a mask, gloves and apron (see attached sheet)

This is to stop the virus from passing from person to person

This might last for a few months

We will let you know when things have gone back to normal
