

The Coronavirus

The **Coronavirus** is a **virus** that can make people feel unwell.

COVID19 CORONAVIRUS

The **Coronavirus** can also be called "**COVID-19**".

People who have the **Coronavirus** may have:

- Sore Throat
- Dry Cough
- A Fever
- Difficult to Breathe

Most people who have the **Coronavirus** will stay at home to get better.

Some people who have the **Coronavirus** will go to the hospital to get better.

To **help stop** the spread of **germs**, people **must** **cough** or **sneeze** in a **tissue** then put the **tissue** in a **bin**.

To **help stop** the spread of **germs**, people **must** **wash** their hands with **soap** and **water**:

- **Before eating**
- **After sneezing**
- **After touching your nose or mouth**

We can **take our time** when we **wash our** **hands**.

Washing between **fingers** and **all over** our **hands**.

Use a **hand sanitiser** if there is no soap.

People are **not allowed** to go to **busy places**.

Lots of shops, events and **places** are **staying** **closed**.

You will have to spend more **time** at **home**.

Your **family** and **staff** will help you find **activities** to do at **home**.

Places will be **closed** to try to stop lots of people catching Coronavirus and let **everyone** get better.

Just like other types of flu, the **Coronavirus** will go away.

It is **important** that we **follow** what the **Government** and **NHS** ask us to do.

If you are **worried** about **Coronavirus** you can talk to **family** or **staff** who support you.

There are people who can help you.
